Kuhio Writes On His Republicanism

To the Evening Bulletin:—I see the Advertiser evidently feels outraged about the statement I made last evening in the Bulletin. It considers it an attempt to disrupt the Republican party.

As I can never remember an election when the Advertiser itself was not busy disrupting and attacking the Republican ticket, it comes as a surprise to me that it should feel as indignant with me, even if I am engaged in the same business it is always at, at election times, which, however, I am not.

Instead of waiting until the elections are on and the ticket selected, when kicking will not mend matters, I am giving wholesome, if emphatic, warning a year before the elections, while there is yet time to do much to satisfy the people where they are now dissatisfied. I am going to Washington to do all I can to secure the passage of the amendments to the Organic Act recom-

mended by the Legislature, but that, if accomplished, is simply getting ready to do something, getting better machinery to work with, but meanwhile a lot can be done through the present laws, and it is up to the party leaders to work.

The Republican party in Hawaii is a wider proposition than the Territorial executive, a wing by no means so close to the people as the branch that has to go before the electors for votes.

More heed should be given to those who have got to face the voter and the opposition at the elections.

The Advertiser, instead of announcing its intention of cutting my political throat, should get busy with the land question, and in that way help carry the party successfully through the next election. Instead it admits the existence of a plot evidently hatched before ever I said a word in Kona to unite so-called leading Republicans and

DEMOCRATS to form some independent party for the next elections. See its editorial this very morning to that effect.

It is no personal grievance I am airing, but a vital issue as to the public lands which involves the entire Republican Territorial administration past and present, and which threatened to defeat the Republican party last election, and which I can see is rising up in a still more menacing manner against next election.

I claim I am a Republican, and a good Republican, in speaking out now and to the point.

So far as Governor Frear is concerned, if he can put things into shape so that we can enter the next campaign with the good will and confidence of the voters back of us, no one will be more ready to support him and his administration than I. J. KALANIAN'OLE.

NO DISSENSION, INSISTS WILDER

"The statement in the Advertiser that dissension or feeling between myself and Chief Justice Hartwell or Justice Perry is responsible for my alleged resignation to Washington yesterday is absolutely without foundation," declared Justice Arthur Wilder of the Supreme Court this morning.

"My relations between Chief Justice Hartwell and Justice Perry have never been more amicable than at present. The reason for my resigning before the first of the year is because of the fact that on my retirement from the bench I am going to become affiliated with the firm of Thompson & Clemons. Mr. Thompson leaves on the Korea Monday for New York. The office will be accordingly short-handed and I feel I should be there while Mr. Thompson is away. This is the sole and only reason for my request that my resignation be immediate."

Justice Wilder also ridiculed the assertion that an occasional dissenting opinion was indicative of "feeling" among the justices of the Territorial Supreme Court.

Chief Justice Hartwell says concerning Wilder's resignation:

"Justice Wilder did not like to accept reappointment on the bench last February. I urged him strongly to remain and he finally consented to do so but only with the understanding that he would not agree to serve out the second term. Last October he informed me that he had finally concluded that for business reasons he should have to leave and expected to do so in February. Yesterday he told me that the departure next Monday of one of the firm which he is to enter made it exceedingly important that he resign immediately. That is the whole of it as far as I know and believe. He has always said that he enjoyed the work on the bench and would like to stay upon it if the salary would justify him doing so. I am sure that I regret his leaving for I

RUBBER PROSPECTS GOOD FOR HAWAII

Members of the Hawaiian Rubber Planters' Association turned out in strong force this morning at the Chamber of Commerce, to discuss the situation of rubber growing on a profitable basis in the Territory of Hawaii. After the minutes of the previous meeting had been read, papers by rubber experts of the Territory were read and discussed. The report of Mr. Lindsay giving statistics of this industry was warmly received.

There are in the islands five incorporated companies whose principal business is the growing of rubber. Statistics were read from all of these and also from two individual planters. The whole Territory was represented with the exception of Oahu and Kauai. Six reports were received from Maui and one from Hawaii. The acreage controlled by these companies and individuals is 5599 acres. The acreage planted to date is 1338 acres, viz.: 242

FEW PORTUGUESE SEEK WORK ON PLANTATION

New Arrivals Express Preference For Oahu

Raymond C. Brown, Inspector in charge of the United States Immigration station, and his staff of officers completed their examination of the 869 Portuguese men, women and children who arrived Tuesday from the Azores by the British ship Swanley.

It was not until after 9 o'clock last evening that the last arrival had been passed or rejected by the immigration officials.

Out of the entire number, twenty-three persons have been detained pending a more complete examination from a special board which will probably take up these cases this afternoon. The Portuguese now being held awaiting further inquiry include members of the families of those who are suffering from either a mental or physical affliction. In the instance of a child less than three years old, the mother is also obliged to remain at the detention station. Should the malady from which the little one is suffering prove to be contagious, of course the mother will have to be deported as well as the child.

In the party at the station are two young men who are said to be mentally deficient. They are considered as harmless but nevertheless, failed to pass the required examination submitted to all immigrants. Several others are victims of scalp disease and the case of one woman is pitiable in the extreme.

The immigrants spent but one night at the immigration station. Those who had been passed by the inspectors were released this morning and they filed from the grounds and many immediately took steps to secure a place to stay while they remained at Honolulu.

Inspector Brown and his staff put in a strenuous forty-eight hours in handling the large batch of immigrants. They kept up the hard pace way into the night in order that the people under their charge might not be detained any longer than absolutely necessary for carrying out the provisions of the Federal law.

There was a steady stream of people passing to and from the immigration station today. A large delegation from the neighboring plantations and the slopes of Punchbowl came down to

Roth Tells of Night Tragedy

Girl Lost Life When Heavy Machine Swung Off Road In The Darkness

Miss Harriet Smith of Hyannis, Mass., was killed last night by the overturning of an automobile driven by Otto Sorenson, near Raymond Grove on the road to Pearl City.

The early report that the auto overturned while rounding a turn is erroneous.

Mr. Sorenson was driving his machine very carefully on account of having no acetylene lights. With him in the machine were Miss Smith on the front seat and Miss Lucy Hegemann of New York and Will Roth on the rear seat. The party were out on an evening ride and jogging along comfortably toward Pearl City.

In the vicinity of Raymond Grove and shortly before making the fatal turn of heading off the main road to Pearl City, the road passes over a small bridge or culvert. Just before reaching this Mr. Sorenson remarked to Miss Smith so that others in the machine heard him that the white road

In making this bridge he mistook the edge that reached the left railing for the right hand railing and thus drove his machine over the side.

The machine toppled over and Miss Smith was caught under it, her neck was broken and she died instantly.

Will Roth was on the rear seat, and he, too, was caught under the side of the tumbler. Miss Hegemann and Mr. Sorenson were thrown clear. Roth had a very narrow escape. He was gasping for breath when the heavy machine was pulled off sufficiently to enable his being pulled from under it.

Frank Thompson preceded the party and when the accident happened was sitting a puncture on his machine in the vicinity of heading off the main road to Pearl City. As the other machine did not come up he and those with him thought that the Sorenson party had gone on to Waihi.

They knew nothing of the tragedy made it hard driving at night with till one of the native boys whom Sorenson poor lights.

FREAR HASTENING BACK FROM STATES

No action will be taken by the judicial committee of the United States Senate on the appointment of a successor to Federal Judge Woodruff until after the Christmas recess of Congress, according to a cablegram that has been received by Acting Governor Mott-Smith from Governor Frear at Washington.

Cablegrams having been flying between Mott-Smith and the absent chief executive of Hawaii, most of them being resignations, and at least one of them undoubtedly concerning the attitude of the Delegate to Congress on the administration of the Territory's land laws.

Mott-Smith received a reply last night to his cablegram to the Governor stating that Justice Wilder of the Supreme Court wanted to resign immediately. To this a reply was received saying that it was received "just as I am leaving for New York."

Mott-Smith believes the wording of the cablegram to mean that on its receipt the Governor probably delayed his departure, but nevertheless, will try to leave Washington in time to make the transcontinental journey in time to sail for Hawaii on the Mongolia, leaving San Francisco on December 21.

The second cable received from the Governor last night was an acknowledgment of the one sent to him yesterday afternoon conveying the information that Superintendent of Public Instruction Rabbitt had decided to give up his portfolio.

That the Governor does not propose to waste any time on the mainland is evidenced by his early start back from Washington. Mott-Smith stated this morning that he had not expected Governor Frear to be back in the Territory until the middle of January. The information received by him regarding the sensations that Prince Kuhio has developed has presumably influenced him in his desire to hasten back to Hawaii.

It is now generally accepted among the friends of A. G. M. Robertson that Governor Frear has endorsed his candidacy as Second Federal Judge.
